Insurance Policies and Fee Schedules:

We are out of network with all insurance companies. We are a cash based practice. Here we charge you for the time that's used; new patients are typically one hour in length. Depending on whom you see their fee's run a little differently; Dr. Brunschwig is \$330 per hour and Deborah Breakell, our Nurse Practitioner is \$280 per hour. If you go over or under that hour we prorate those fee's accordingly. Follow up visits can run anywhere from 20-45 minutes all based off of the hourly rate. This does not include any labs or specialty testing. We do provide a Superbill at the end of each visit for you to submit for any possible reimbursement.
